SMALL PROFITS PARALYZED THEM Propounding Hard Questions for the Truster to Answer—The Trust to Merge Into a Corporation.

VOL. XXI.

New York, November 1.—The annual meeting of the American Oil Trust was held today. The meeting was called to order by President J. H. Flagler, and about fifty of the Preddent J. H. Flagler, and about fifty of the certificate holders were present. In addition, prories representing \$30,000 certificates were handed in. The president's report was read, and showed that net profits of the trust for the year had been \$1,655,783. Attacks made upon the trust and its products were spoken of in detail in Mr. Flagler's report, and legislation when trusts in many of the states. nst trusts in many of the states was menagainst trusts in many or the trust to a tioned as reason for changing the trust to a corporation under the laws of the state of New

was made for its adoption, one of the certifi-cate holders asked if it would be printed for their benefit, to which Mr. Flagler replied that while there was no objection to the report being seen by all the certificate bolders, there was great objection to its being made public generally. It would put facts and figures into the possession of business rivals which could not be permitted. The te holder replied that what he wanted was told he could have this and sat down.

THE FIRST SIGN OF TROUBLE.

E. H. Benner, one of the certificate holders, rese with a printed paper in his hand, and for the fiscal year were \$1,600,000. Mr. Flagler said "yes." Then Mr. Bonner wanted asked if he understood rightly that the profits said "yes." Then Mr. Bonner wanted to know why the trustees had said, in the last circular, that the profits of the year would be \$2,000,000. Where had the missing one million dollars gone to? Mr. Flagler attempted to explain, but before he had concluded, another shareholder wanted to know if this statement in the circular that the cash and cash assets of the company were seven million was not also company were seven million was not also million dollars too much?

General Thomas, a trustee, now took up He said that the circular had been issued on reports from various properties of the trust, which were believed to be correct. Since reports from various properties of the trust, which were believed to be correct. Since then, however, regular reports had come in, and a loss of \$1,000,000 by the shrinkage of values had been shown. He was one of the trustees, but had done as other trustees and directors in railroad companies had usually done; he had attended the meetings and listened to the reports. What had gone in one ear had gone out the other, and he had taken his fee, eaten his lunch and gone away. He realized now that he had been remiss in his duties, and was present today to take the censure of certificate holders. If they wanted his head, as trustee, they could have it.

General Thomas undertook to define what the trust was, and related that he had spent three weeks trying to get out of the tangle in which he had been in regard to its nature. When he had investigated the affairs of this cotton oil trust, he had found that men who had been officially conducting its business, had been buying a good deal of oil from rival companies when the price was up, and had been obliged to sell out

AT LESS THAN THEY BOUGHT IT for. They had done the best they could, but had made a mistake. That accounted for a part of the loss of \$1,000,000. One other thing which contributed to the loss was the poor which contributed to the loss was the poor quality of last year's cotton seed crop. They had kept this fact a secret for a number of reasons, but it was a fact and might as well come out, that for some reason the oil had been of such poor quality that money did not come in for it as had been expected in the estimates. He then spoke of the plan of merging the trust into a company and said that by the plan promesd there would be a reduction in the canithere would be a reduction in the capital to \$21,000,000, and thus "pump out some of

William Wilson Cromwell then moved that the certificate holders desire that the American Cotton Oil Trust be merged into the American Oil Maria Oil M can cotton Oil rust be merged into the Amer-tean Cotton Oil company, and that a committee be appointed to consider plans and arrange-ments for the purpose and to report at an ad-journed meeting of the certificate holders. The resolution of Cromwell was adopted unanimously and a committee was adopted pointed as follows: Frederic P. Olcott, chairman; William L. Bull, Nicholas Sheldon, James H. Benedict, Edwin D. Adams and Samuel Thomas.

The meeting then adjourned and the certifi-cate holders seemed generally satisfied with the outcome.

DEPOPULATING KEY WEST. . The Cuban Cigarmakers Returning Home A Dull Time in Trade.

JACKSONVILLE, Fla., November 1.—Today's advices from Key West indicate that the cigar makers strike there has assumed a new shape and that the paralysis of general business on account of the lockout is already seriously affecting the condition of the populace. The Times Union Key West correspondent under date of Sist ultimo, says: Messonier, treasurer of the cigar makersunion has been correspondent under date of 31st uttimo, as sonier, treasurer of the cigar makersunion has been sonier, treasurer of the cigar makersunion has been

dition of the populace. The Times Union Key West correspondent under date of 31st ultimo, says: Messonier, treasurer of the cigar makersunion has been expelled or driven from the island. This was done by a committee of the board of trade, who had endeavored to arbitrate the trouble now existing. Messonier left a day or two ago on a steamer and there was much excitement among the Cubans, a couple of thousand of whom were assembled on the wharf. Though no real danger was apprehended, yet the militia was under arms at the city hall, and the mayor had all of the regular police force assembled there with instructions to be in readiness, and subject only to his caft. They remained there until notified by the mayor that all was quiet. The reason of Messonier's expulsion was that his presence here was detrimental to the peace, as he was considered the chief promoter of the existing troubles. His and his wife's passage money was paid to Tampa by the board of trade. Monday afternoon other members of the cigarmaers' committee received (per delivery by hack driver) an anonymous letter, with tiekes enclosed for Hayana on the steamer Hutchson, which salled that evening, requesting them to leave the place. They, however, paid no attention to the notice, with the exception of Jose Garcia, who went to Hayana on the advice of the Spanish consul. The affair was telegraphed to the governor-general at Hayana and the following telegram from the consul, who was in Hayana, was read:

Hoist a flag as protest to the mayor or any anthority which has the right; protect him in my house; justice will be given," etc.

The Spanish man-of-war George Juan arrived not hat harbor Monday morning with the Spanish consul and after taking on board two hundred and nibely cigar makers, women and children, salled the same evening for Hayana. proclamation setting apart Thursday, November 28th as a day of national thanksgiving was issued late this afternoon.

By the president of the United States.—A proclamation. A highly favored people, mindful of their dependence on the bonuty of Divine Providence, should seek a fitting occasion to testify gratifude and ascribe praise to Him who is the author of their many blessings. It behooves us then, to look back with themsaful hearts over the past year and bless God for his infinite mercy in vonchsafing to our land enduring peace; to our people freedom from pestilence and famine; to our husbandmen abundant harvests, and to them that labor recompense of their toll.

Now, therefore, I, Benjamin Harrison, president of the United States of America, do armestly recommend that Thursday, the twenty-eighth day of this present month of November, be set apartas a day of national thanksgiving and prayer, and that the people of our country, coasing from the cares and labors of their working day, shall assemble in their respective places of worship and give thanks to God, who has prospered us on our way and made our paths the paths of peace, beeseching Him to bless the day to our present and future good, making it truly one of thanksgiving for each runnited home circle as well as for the nation at large.

In witness whereof, I have hateennto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this first day of November, in the year of our Lord eighteen hundred and eighty-nine, and of the independence of the United States the one hundred and fourteenth.

Secretary of State.

THE BANK BREAKS.

And No One but the Officers Lose Money.

NASHVILLE, Tenn., November 1 .- [Special.] One of the surprises in financial circles is the sus-pension of the National bank of Shelbyville, of which Hon. Edmund Cooper is president, and Brown R. Whithorne cashier. Another surprise is that a bank fails and nobody loses any money ex-cept the officers of the bank itself. This bank has been considered a solvent institution by the general public, but for several weeks its paper has been allowed to go to protest. A few days ago the officers of the bank saw that failure was inevitable, and began to prepare for it. They paid out all deposits to the depositors and refused to take more. They also began to take up the paper of the bank, substituting personal notes secured by mortgage. The cashier of their correspondent bank in this city said to a Banner reporter today:

"Mr. Whithorne has mortgaged his entire personal estate to save the creditors and stockholders of the bank. It is well known that no creditor will lose a dollar." eral public, but for several weeks its paper has been

It was represented that a member of the delegation who has been sucepned as a winess in the approaching trial at-Jacksonville of sileged election frauds in Florida, has been threatened with assassination should he return to the state for the purpose of testifying. The attorney general said that, while he was not prepared to say precisely what action would be taken in the case in question, he would say that they could rest assured that in any matter in which the federal authorities had jurisdiction the laws would be enforced, so far as it lay in his power to enforce them, and all officials and witnesses protected. feelored men, representing the late general Bap

A Large Transaction JACKSONVILLE, Fla., November 1 .- One of the largest transactions in land over consummated in the south has recently been perfected and made public today. All unsold lands in Florida of the Plant system of railroads and steamships, of the Florida Southern railroad, of the Jacksonville, Fiorida Southern railroad, of the Jacksonville, Tampa and Key West system, including the Florida Southern railway, and of the Florida Commercial company, have been consolidated under the name of the Associated Railway Land Department of Florida, with headquarters of the syndicate at Sanford, under the management of Colonel D H. Ellisott as general agent. Over six million acres of land are consolidated under one management by the formation of this syndicate, and the entire business perfailing to their improvement, sale and lease will be transacted in Sanford. This consolidation is the outgrowth of negotiations begun last spring.

"THAT'S THE MAN!"

OLD MAN CARLSON IDENTIFIES MARTIN BURKE

AS THE LESSEE OF HIS COTTAGE Thrilling Incidents of the Great Trial Chicago-Carlson and His Wife Point Out Burke as the Stranger.

CHICAGO, November 1.-Martin Hale, carpet layer, was the first witness in the Cronin trial this morning. He testified that the carpet bought by "J. B. Simonds" in February last, was laid by him (witness) on the floor of a room at 117 Clark street. Witness was then shown a piece of carpet, presumably from the Carlson cottage and he identified it as identical in pattern with that which he laid in Clark street room After the shipping clerk, delivery man and other employes of Revels had testified, the first important witness of the day, Annie Carl-son, was placed upon the stand. The young woman began her testimony very timidly. After a few questions she became so nervous that he replies were almost inaudible. It frequently became necessary for the court stenographe to repeat aloud the barely uttered sentence which fell from her lips. The audience in the courtroom, assuming that revelations of a most startling character were being made craned their necks in the direction of the wit ness stand. The excitement became intens ness stand. The excitement became intense as Mr. Mills put the next question. Witness then went on to state how on the 20th of March, while she was at Carlson's, a man came to rent the cottage, which stood near the house. He said his sister was to keep house for him, and that he had some furniture he wanted to move in at once. He gave his name as Frank Williams.

"Mrs. Carlson," asked the lawyer, "do you see that stranger in the court room now?"

"Yes, sir."

see that stranger in the court room how.

"Yes, sir."

"Will you point him out to the jury?"

"There he is," said witness, pointing directly to Martin Burke.

"Do you mean Martin Burke—that man?"
continued Mr. Mills, pointing to Burke

again.
"Yes." replied the witness, and that ended Mr. Forrest then cross-examined witness at great length, going into all the details of her movements and her visits to Carlson's house. She testified that she had never seen Burke She testified that she had never seen burke from the day he entered the cottage until a few days ago, when she came into the court room for the purpose of identifying him, yet she recognized him immediately. His eyes, hair and mouth and his peculiar way of look

ing, she said, made a great impression on her and she knew him at once,
Mr. Forrest made witness look away from Burke and at the jury and then describe his features and the color of his hair. This she

Mr. Forrest, for the defense, raised a questiog as to whether this testimony was applica-ble to any other one of the defendants except Burke.

ble to any other one of the defendants except Burke.

The court decided that that was a question which would have to be decided by subsequent developments of the trial.

Jonas Carlson, owner of the cottage, was the next witness. He corroborated the testimony of his daughter-in-law about the stranger coming to rent the cottage. Witness then said:

"He asked me if it was my house, as he wanted to rent a house. I tool him yes. He said, 'Let me see the house,' and we walked over to the house and I took the keys and went through the house with him. We entered by the back door and he looked around and said there were six rooms. 'How much do you ask for it?' I said, 'Twelve dollars a month.' He said: 'Can you take eleven?' No, I cannot,' I said. 'I will give you the money now,' he said. Then I got the money and my boy gave him a receipt when we went back to the other house."

Carlson went on to say that the stranger who

back to the other house."

Carlson went on to say that the stranger who gave the name of Frank Williams, said that he had three brothers and his sister was to come on from Baltimore to keep house for them. He had bought furniture and it would arrive in two or three days. The stranger then took the key. Witness said he had met and talked with O'Sullivan, one of the defendants, many times. O'Sullivan lived in the immediate vicinity. At this point recess was taken.

The Afternoon Session.

At the opening of the afternoon session Joseph L. Brouse, a photographer, took the stand and identified a photograph show him as one taken by him. It was a picture of the Carlson cottage and O'Sullivan's house and ice honse. It was placed in evidence.

John C. McDavitt, clerk in the criminal court, identified a diagram made by him of the Carlson cottage, and of the cottage itself, the size and location of whose rooms he described. It was admitted in evidence.

It was admitted in evidence.

Jonas Carlson was then recalled and his testimony on behalf of the state was continued.

He said that the stranger, after renting the cottage, walked across the lots to O'Sullivan's stables, where he met O'Sullivan and talked with him. Witness heard Burke say to O'Sullivan: "The cottage is rented." The next stables, where he met O'Sullivan and talked with him. Witness heard Burke say to O'Sullivan: "The cottage is rented." The next time witness saw Burke was at about five o'clocklon the afternoon of May 4, a few hours before Cronin was murdered. He stood on the front steps of the cottage. At seven o'clock that night witness heard two men talking in the cottage. They were talking in a "hard voice" as Carlson expressed it. In April witness had a conversation with O'Sullivan about the men who had rented the cottage. O'Sullivan told him that he knew one of them; that he was "all right," and that he would pay the rent when due. On May 19th Carlson had an other conversation with O'Sullivan in which he told O'Sullivan that the cottage was vacant he told O'Sullivan that the cottage was vacant and that he had received a letter from the man who had rented it, asking him (Carlson) to put the furniture in the basement, and say-ing that he

to save his sister the trouble of scrubbing it. O'Sullivan remarked that he was having hard luck with his cottages. The letter spoken of and its envelope were identified. On the 20th and its envelope were identified. On the 20th of May witness entered the blood-stained cottage, he said, and proceeded to describe the conditions there apparent.

The examination of this witness had been presaic enough up to this point. It continued

prosaic enough up to this point. It continued as follows:
Q.—How many times all together did you see the man calling himself Frank Williams?
A.—Three times.
Q.—That is in the neighborhood of where you lived on Ashland avenue?

A.—Only two times there, Q.—You saw him once beside those two A. -Yes, sir.

when the witness, walking straight up to the defendant, Martin Burke, shook his hat at him

and exclaimed:
"THAT'S THE MAN." Despite his utmost efforts to appear unconcerned, it was evident that Burke fully realized the damaging nature of old man Carlson's testimony. Mr. Mills was not slow to clinich his advantage. "Is that man," he asked, (indicating Martin Burke.) "At your place you called Frank Williams." and witness unhesitatingly answered, "Yes six."

Williams," and witness unhesitalingly answered,
"Yes sir."
John Garriny, a teamster, testified that about two
weeks ago, Coughlin told him he wanted to see
"Major" Bampson, he wanted to get him to "slug"
a man. He wanted the man disfigured for life and
if he was killed it would not make much difference.
On cross-examination counsel for defense sought
to show that witness had a grudge against Coughlin, but he denied that such was the case. Cour
then adjourned until tomorrow.

MINNERED, November 1.—Gillette says that Burke told him that Cronin was clubbed the moment he stepped through the door of the Carlson cottage. "He was very strong," said Burke, at the same time applying a very impolite epithet to the doctor, "and it was a bigger job than we had expected." Burke said that after the murder they put

the body in a box and drove to the lake s

Not meeting their confederates, they threw the body into the lake from the shore, but the the body into the lake from the shore, but the water was shallow and they were fearful of its being washed ashore. So they put it in the box again. The body bled profusely, and they had to cover up the blood stains by shoveling soft sand upon them. Then they took the body back to the city and dropped it in the catch basin, where it was found. Burke also said that the man whoworked at McGinnis's fish and oyster depot, West Randolph street, was to have taken a hand in the murder but his heart failed him and he backed out at the last moment. Burke said he himself rented the Carlson cottage and put the furniture in. Carlson cottage and put the furniture in.
When they got to the catch basin they could not get the body in and had to double it up.
While working at it, they got scared by some passing wagons and had to leave it, but returned to finish the job. Burke said that when the police of Winnings searched him they

turned to finish the job. Burke said that when the police of Winnipeg searched him they found everything but the check for his bag gage. That they missed, and his baggage went on to its destination.

Gillette pressed Burke to tell him why they had conspired to kill Cronin. He said he had squealed on a man who was short in his accounts and was a traitor and had been false to counts and was a traitor and had been false to the cause and it had been decided he should be put out of the way. Baker and Howell are satisfied that the story is true in every detail. Gillette is retiring into the solitude of detail. Gillette is reitring into the solitude of Stony mountain penitentiary for ten years. Mills and Heffer have practically the same story, and the question is how to get them to Chicago. Heffer is a tough, and Mills very little short of a lunatic. Still they can undoubtedly give very important evidence if they can be got to testify. Gillette was pressed to say whether Burke had ever mentioned Alexander Sullivan. The prisoner said Burke had once or twice referred to a lawyer named Sullivan.

Mrs. Bender and Her Daughter Kate Arrested at Last.

roe and Mrs. Sarah E. Davis, charged with the murder of Colonel York in Kan-as in 1873. This is the culmination of the numerous murders committed by the Benders in Lebette county, Kansas. This afternoon Mrs. Mooroe and Mrs. Davis, in e-charge of Deputy Sheriff Dick, started for Labette county, the scene of the murder. The men sent here from Kansas, who were well acquainted with the Benders, fully identify Mrs. Monroe as Mrs. Bender.

The fact that officers from Kansas were here had been kept so quiet that their presence was not known until the arrest was made and they were about taking the train for Kansas. Their leaving created a sensation. The old lady declared she would not be taken alive—that she would die in her tracks first, but the strong arm of Deputy Sheriff Earl succeeded in forcing her into a bus. At the depot she took the matter very coolly and laughed and joked over her prospective trip. Eliza, her daughter, was reticent, and said simply that the other woman was Mrs. Bender, but that she was not Kate, and that she would make full disclosures hereafter. She has already implicated her mother under oath with the Bender murders but says that she that another sister and Bender murders, but says that another sis not she was Kate Bender. Her identification ever, seems to be complete.

AN UNPROVOKED MURDER.

Sheriff Grigsby, of Dickson County, Tennes NASHVILLE, Tenn., Novemder 1.—[Special.] What now looks to be a cold-blooded and unpro-voked murder created a sensation tonight. James Arledge shot and instantly killed Sheriff Sam W. Aricage shot and instantly kined Sherin Sam W. Grigsby, of Dickson county. The cause of the killing is unknown. Grigsby came up to the races two or three days ago, and was stopping at Warner & Jackson's hotel, opposite the depot. He was in the hotel tonight about eight o'clock when Arledge entered, and after getting a drink turned and asked Grigsby.

Grigsby
"Have you anything against me?"
"Nothing at ail," responded Grigsby.
"You are a d—d liar," responded Arledge, who jerked out his pistol as he spoke, and shot Grigsby in the left eye. He then turned and walked to the door, stepped out and ran in the direction of the depol. Grigsby fell without a word and died in less than fifteen minnies. So far as now known the men were not acquainted. Grigsby was a quiet, peaceful man. He lived at Charlotte, in Dickens county, and leaves a wife and three children. Arledge own a distillery in Winchester. He and his brothers are brave men, and well liked, but are known to be desperate men in a fight or a quarrel. The closest inquiry can establish no cause for the killing as yet. The verdict of the coroner's jury was in accordance with the facts.

CUT AT A CORN-SHUCKING. Two North Carolina Boys Engage in a Row.

RALEIGH, N. C., November 1.—[Special.]— At a corn-shucking in Burnsville township, Anson neunty, Willie Cox, aged 13, a white lad, dangerously out Leander Harrington, aged fourteen, also white. Cox threw water in Harrington's face, and later kicked him. A fight ensued, Cox drew a knife and disemboweled Harrington, one of the intestines being cut through. The wound is proknife and disemboweled Harrington, one of the in-testines being cut through. The wound is pro-nounced very dangerous. Cox was immediately arrested for preliminary hearing. He pleaded guilty and was committed to jail without bail. As the deputy passed the house of Cox's father, on-his way-to jail, the boy asked-that he might be allowed to go in and get come clothes. Tucker followed in two minutes. When he entered the boy had already made his escape to the woods and has not been seen since.

Nearly Sawed in Two

CHARLOTTE, N. C., November 1.—[Special.]
Earnest Warren happened to a very sad accident at Gastona today. He was a young white man and was employed as a laborer by Leroy Morrow at his cotton gin there. While Warren was doing some work near the saws his clothing caught in them and he was instantly snatched against them. His right arm was completely jerked off and fell into the gin. The whizzing saws began and soon a terrible gash about four inches deep was cut, extending from his right shoulder across his breast to left side half way between shoulders and waist and very bad wounds were also inflicted on his face and neck. The unfortunate young man was at last rescued from the machinery and carried home in a dying condition. Physicans do not think he can recover.

THE LAST AND BEST

TODAY THE CLOSING OF THE PIED-MONT EXPOSITION.

THE GREATEST ONE OF THE SOUTH The Grand Programme of Special Feature for Today—The Workingmen Will be Out in Numbers—The Races.

The question usked by everybody yesterday was, "will you have the fireworks tomorrow night?"

The answer to that is this: "The fireworks display is ready and will be fired unless rain actually prevents. If it is not actually rain ing at five o'clock, and does not rain after that hour before nine o'clock the display will be fired. It is prepared and is ready and is paid

If it should not be raining today the air will be clearer and the fireworks will show better because of vesterday's rain. On Thursday night the air was slightly heavy and the smoke hung about the pieces until the wind lifted it away. With three or four hours of clear weather this afternoon-that is to say, between five and nine o'clock the magnificent display will be fired.

In any event the programme advertised for today will be carried out. The great exposition will be open to the people in every department. The various shows will all be open. The balloon ascension will take place with parachute leap, and the Wild West show will give its two performances. The baby show will take place. The big dairy will be in actual operation. The mule race will come off as advertised. Every feature of the reat programme will be carried out faithfully.

And if it does not rain between five and nine o'clock the fireworks display will be given and will excel anything ever seen in this country. Remember that this will be the last day of the exposition, and by Monday morning the great show will be scattered and over.

This Is Labor Day. Labor and Atlanta's day. It will be tremendous. Good weather will bring 20,000. Such a programme never heard off.

The fireworks "will wipe all others fro he face of the earth."

Even the dismal rain of yesterday did not prevent large crowds from visiting the expo-sition, although everybody in Atlanta was waiting to join forces to make this the closing day the very greatest of the exposition. The programme for today has been arranged by the committee with care to give to visitors a day replete with sport and merriment. Every exhibitor will put on a holiday appear ance and the exposition will be in full blast during the entire day. Not an exhibitor will commence to remove his display till after the close of the fireworks.

The Fireworks Display Tonight. Perhaps no single event in Atlanta since the war has created such universal discussion and interest as the display of fireworks tonight at the Pledmont exposition.

The first display of fireworks was very fine, but was not up to the standard of competition for the American championship and the directors promptly notified the fireworks company of that fact. Mr. Pain's first show was very much finer. The second show of the New York house was simply 'grand, and on last Thursday night, Mr. Pain gave such a show as has never been surpassed anywhere. The Unexcelled Fireworks company will give their first and only exhibition tonight. They entered the contest under peculiar circum stances. Having seen the first display, they contracted with the Exposition company to give a display that should be three times as good in quantity and quality for the same money. The directors felt that this would insure such a grand show that they closed the contract, although they had already spent more for fireworks than was ever spent by any exposition in this country. Mr. Dowling and Mr. Bruce, the two leading representatives of

the Unexcelled house, have been in the city for a week with a large force of workmen. Mr. Hoyt, of Hoyt & Thorn, their Atlanta representatives spent two weeks in New York arranging for the display. These gentlemen have carefully watched the last two displays, and Mr. Dow-

ling said last night: "I guarantee to you that we will beat Mr. Pain's last display, and beat it badly, and beat it in every particular. Where he fired fifty of the finest shells, we will fire one hundred and forty-eight. He fired no Japanese shells, for we control them in this country, and they are wonders. He fired one shell of shells-which was the last shell of his display. We will fire twenty-four of those. He had one flight of rockets which followed his falls of Niagara, and filled the whole sky with color and radiance, and brought the crowd to its feet with applause. We will have eight of those flights of rockets His last flight was said to be the most beautiful thing ever seen in Atlanta. We will surpass them, and will have eight flights instead

of one. "We have one shell charged with magnesium that explodes in the heavens with a light equal

to five hundred are electric lights. "I invite the people of Georgia here tonight for I promise you they have never seen such a sight, and probably never will have the opportunity again. When we entered this competition, we determined to have the American championship medal if it cost us five times the sum you paid us, as large as that was, and we are going to have it,"

Mr. Bruce, who is known as the best fireworks expert in the country, says: "I have no fear but that we will excel Mr. Pain's display, and especially in aerial goods. Our shells are simply unequalled in the world."

Mr. Hoyt, of Hoyt & Thorn, says: "We

will sweep them off of the face of the earth." Every arrangement is made for the comfort of the vast crowds that will attend tonight. The street cars will put on sixty cars. The electric line will run tow cars, which will double their capacity. The Pledmont Air-Line will put on trebble trains, and twenty five thousand people can be handled with promptness and safety between nine and ten o'clook.

It has created a widespread interest, and ar-

rangements have been made accordingly.

There will be babies and babies and babies.

There will be babies and babies and babies.

In fact, for a part of the day at least, the youngsters will hold the fort.

The prizes that have been offered are unusually handsome, and are such as to induce the attendance of the largest number of the finest, the plumpest and prettiest babies in the state.

The show will be held in the art work despartment, commencing at ten o'clock. If you want to see the best collection of babies in the world, be on hand early so you won't get left. It will be babies today.

A Handsome Compliment.

Mr. S. H. Cohen, the popular and efficient manager, was the recipient of a neat compli-ment yesterday, at the hands of the exhibitors

Mr. Cchen has been energetic and faithful in the discharge of his portion of the great work, and the present will be a pleasant reminder of his associates in what is acknowledged to be the best show of the kind ever held in the south.

The presentation of the cane occurred about half-past two yesterday afternoon, near the grand entrance to the main building.

The Zouave band, together with nearly every exhibitor on the grounds, was present, when the cane was presented.

Mr. Cohen was on the second floor of the building, looking after some of the exhibites, when a committee of several exhibitors requested his presence at the meeting below.

When Manager Cohen appeared, Mr. L. H. Filene, on behalf of the exhibitors, stepped foward with the cane in his hand, and said:

"In behalf of the exhibitors of the Piedmont exposition, I take pleasure in presenting to you this slight testimonial of our appreciation and recognition of the valuable services you have rendered. We hope you will long be able to use it, not as a support, but as a gentle reminder, if need be, of old associations."

The speech was a very appropriate one, and Mr. Cohen's thanks to the assembled exhibitors were neatly and characteristically expressed, making the presentation one of the pleasantest events of the exposition.

The cane, which is of solid ebony, has a massive gold head, beautifully carved, and engraved with the words, "presented to Mr. S. H. Cohen by the exhibitors of the Piedmont exposition, 1889."

To Banquet the Directors.

Messrs. Cooper & Moses, who have so successfully run the grand stand restaurant, have invited the directors to a banquet this evening, at the close of the exposition.

The board last night unanimously accepted the invitation, and fixed the hour at half-past six. This action on the part of the popular caterers shows appreciation of the work of the directors in securing such large crowds, which has made the business of all the privilege mea both pleasant and remunerative.

wonderful and much-written-about mirage which has been named the "Silent City." It is occasions ally visible in the summer season from certain points in Glacier bay. He describes it as follows:

"About bo'clock on the afternoon of in early July day we suddenly perceived rising above the glacier over in the direction of Mount Fairweather what at first appeared to be a thin, misty cloud. It soon became clearer, and we distinctly saw a specter city moving toward us. We could plainly see houses, well defined streets and trees. Here and there soes that spires over huge buildings which appeared to be ancient mosques or cathedrals. If "It was a large city, one which would contain at least one hundred thousand inhabitants. I have seen Milwaukee miraged over Lake Michigan, and this city appeared considerably larger than that. It d d not look like a modern city—more like an ancient European city. I noticed particularly the immense beight of the spires.
"Of course we were much excited. The Indians who were with us were overcome by their superatious fear and ran away. We both had cameras and separated in order to take it from different points of view. By the time we reached points of vantage it had grown fainter and soon disappeared.

"I should say the spectacle lasted about twenty-five minutes."

RICHMOND, Va., November 1.—Today, in Henrico county, court argument was heard on the petition presented by Judge Waddill, representing the Mahone party, in reference to the registrars action concerning the segistration books. This petition was a general complaint against the number of registrars of the county for failure to register colored voters and for striking names from the books. The democratic counsel included: Hon. George D. Waso, Messra. Charles V. Meredith and William H. and Conway R. Sands. The republican counsel comprised: Edmund Waddill, General E. Edgar Allen, Giles B. Jackson and James R. Russell. After a lengthy argument the petition of Judge Waddill was dismissed on technical grounds. It is understood that a mandamus will be applied for in the circuit court tomorrow.

A RECONSIDERATION TO BE AT-TEMPTED TODAY.

nator Harris Against the Resolution-Senators Lyle and Strother for Them-Other Legislative News.

The Whitfield resolutions were defeated in

the senate yesterday.
Senator J. W. Harris made a strong argument against them, and Senator Lyle made another rattling reply, and Senator Strother came up unterrified.

The resolutions were lost by a vote of 22 to 17. Their friends will probably attempt a nsideration this morning.

The Whitfield resolutions were defeated in the senate yesterday by a vote of 22 to 17.

After dispatching some minor business the resolutions were taken up and several amendments were ed. nator Whitfield put on an amendment provid-

ing that the members of the commission take oath to impartially try, hear and determine the questions

to Impartially try, hear and determine the questions submitted to them by these resolutions.

Benator S. R. Harris offered a resolution to strike out the names of James M. Smith, H. D. McDaniel and substitute the names of W. J. Northen, J. T. DeJarnett and H. G. Turner.

Senator Harris said he had no objection to these parties, that James M. Smith had been attorney for the lessees and H. D. McDaniel owned stock in the Georgia railroad.

"I have no objection to Senator Colquitt," said he, "except that he is a politician."

At this Senator Massengale was on his feet to protest.

he, "except that he is a politician."

At this Senator Massengale was on his feet to protest.

"When the gentleman makes that reference to Senator Colquit I rise on the floor of the senate to say that I do not think it is fair. He is not a politician in he is a gentleman as pure as any man in the state of Georgia. He is a personal friend of mine, and while I coincide with the gentleman in his views on this question, I do not think it fair, just or right to impuge the motives of that man because the senator says he is a politician.

"He is a man as honest, as righteous, as just as any man on the floor of this senate or as any man in Georgia. I know the reason for this, Last year when Grover Cleveland was nominated on the platform of free trade and reform, he was a leader in that cause and I am unwilling to see him attacked on the floor of this senate, thoughld differ from the gentleman who introduced this resolution. You know the views of the people of Georgia in reference to the last election when the distinguished gentleman who presides over this senate was sent to St. Louis, It is a reflection upon his character, a reflection that I can not and will not istand. Rule him out because he is a politician? Are these other gentlemen not politicians, connected with the politics of Georgia for years? I hope the senate will not take him out of this body of distinguished gentlemen proposed by the senator from the 20th. If we have this commission why strike him from it? Would you rule out the distinguished resident of the state agricultural society of Georgia? Turner is as much a politician so converted with the politician of the senate must be a politician to get here, and it is a reflection upon the character of the gentleman to rule him out on that ground."

A Great Question.

"Can't a man be a politician and a good man

A Great Question. "Can't a man be a politician and a good man at the same time?" asked Senator Boyd.
"He can, sir; and that is the reason I am opposing the amendment," said Senator Massengale.
Senator Rice moved to substitute Samuel Barnett, of Wilkes, for J. T. DeJarnett, and the motion was

Carriel.

The Harris amendment was then adopted, and the names of Governors Smith, McDaniel and Colquitt were struck out, by a vote of 17 to 14. Senator J. W. Harris

then took the floor against the resolution.

He said that in a court of arbitration all claims of the lessees would be considered, and though they now claim \$857, 112.55, that is a compromise claim and their claim of \$2,200,000 would come up against the state; for any evidence to show that they had offered to take a le a sum would be promptly ruled out of any court of arbitration.

The senator from the twenty-seventh had said that senators are at the mountain and afraid to cross it. We propose to cross this mountain now. We propose to cost this mountain now. We propose to cut the Gordion knot by declaring, on the evidence which is conclusive, that the state does not owe these claims and will not pay them. By adopting these resolutions you do not cross the mountain; you put it off, perhaps, until next fail, and then submit to a tribunni where the state may be muleted of damages. Don't understand me to be afraid of the courts. I stand on the position that the legislature is superior to any court that it can create, and in its wisdom and justice ought to dispose of this matter."

He said that the law of the state is written in every contract, and governs it. It is the law that fixtures are permanent and cannot be removed.

The president of the lease company adults that ne has no legal claim, but claims that in equity he is entitled to some compensation for betterments. The law of the land and the law of the contract adecide this question. It is that anything in the nature of fixtures cannot be removed. The law says that the property which is a stached permanently to the real extension for betterments. The law of the land and the law of the ontract decide this question. It is that anything in the nature of fixtures cannot be removed the contract and chain they have a right to remove the betterments. They claim they have a right to remove the betterments. They law of the leave to their claim to remove betterments.

"They say there are equities on their side. Ah, senators, when they come into the high court of equity they must come with clean hands. No man that has bands befouled can ever enter a court of

But if that court should ever be opened to them "But if that court should ever be opened to them where are the equities in this case? Let me call your attention to a matter of history in this transaction. In 1870 the road was in a very bad condition. The lessees knew that they could not run the road successfully unless it was improved. They calculated how much it would take to improve it for their business and made their bid accordingly and the condition of the road was taken into consideration in making the bid, and the betterments were estimated as a discount.

tion in making the bid, and the betterments were estimated as a discount.

"I am fortified in this by the admission of the sessees. In 1872 when the second inventory was made to correct errors in that of 1870, Governor Brown wrote a letter to Hon. R. W. Phillips, saying that if the state was dissatisfied he would return the road, but he went on to remark that \$25,000 a month was a fair price: "for," says he, "the road was in a bad condition, and we had to improve it. Therefore, \$25,000 was a fair price, and he went on to remark that the state did not owe them betterments and he did not expect to claim betterments, and yet they come now with the cry of equity and claim pay for betterments.

"Again the lessees have spoken. A few years ago

yet they come now with the cry of equity and claim pay for betterments.

"Again the lessees have spoken. A few years ago when the state proposed to forfeit this lease contract, and it had been declared forfeited, the proposition was made by the attorneys of the road that if the state would not forfeit the contract no betterments would be claimed—the friends of the road in the legislature prevented an amendment to that effect from going on the bill—and the lessees in good consciencee and in equity are bound not to that the terments.

when the original lease bill was introduced; "When the original lease bill was introduced; there was a paragraph proposing to pay the lessees for betterments. By the action of the nouse it was stricken out, They had made the proposition, "We'll take the road if you will pay us for betterments."

The legislature said, "You take the road, but we pay no betterments." It struck out that clause, and they took it with notice that the state declined to pay for betterments.

"They are not bound to return the road in the mann condition. That is not the obligation. That would man procedely as it was. The aget says: "You

same condition. That is not the obligation. That would mean precisely as it was. The act says: "You shall return the road in at least as good condition."

same condition. That is not the obligation. That would mean precisely as it was. The act says: "You shall return the road in at least as good condition." It may mean the same, it may mean more. "If you will examine the records as to the bridges, the personal property and the improvements, you will find that the State road itself carned the money that paid for aimost all these improvements. Then in equity does not all that property purchased by the earnings of the state's property, even the engines and cars, belong to the state? But the state does not make any claims. She proposes to do the fair and honest thing. But do you observe that they would actually take up the crossties, ballast, rails? Things which are absolutely buried in the earth, not only fixtures, but buried then. Why it would not be astonishing if they should desire to take up the very creeks under the bridges, because of their increased flow. They actually want us to pay them for digging a ditch. Fixtures, the law says, can't be removed. We propose to let them take away the rolling stock; the locomotives and cars.

He said as to the claim of \$52,000 for two iron bridges that the life of those bridges was thirteen years, and had expired. They would confer a favor on the state by removing those worn out iron bridges and putting good wooden ones in their places. They claim \$5,000 for the change of gauge which was made for their own convenience and say thay have the right to take it up. Senators don't be alarmed at this proposition and adopt the resolution. If they should cost them more than the difference, it would cost them more than into bridges are worth to take them up and build wooden ones. It they can be alarmed at this proposition and equity, but is not this the proper forum? Lut us decided in concience and in equity what is right. I submit with all due deference to those who oppose increate its in inquitous for the state of Georgia.

"I am not in favor of treating these lessees with any unfairness, I am willing to meet them upon the principl

build a good depot as they had improved the property and the state would not pay them for it, and they had no claim for betterments.

"How will you estimate the rolling stock they are entitled to take off?" said Senator McCarty. "Suppose there comes an issue between them and the state about the rolling stock they are entitled to? How about the tax fins, which have been taken up by the lessees in Tennessee?"

"The question of rolling stock has been provided for in the leasenet," replied Senator Harris. "For the purpose of receiving what they get there is an inventory, and it is the intention of the senate, and some senators have prepared a resolution which will look to the settlement of those vexed questions, where there is no doubt as to what the state would do. We are not trying to skulk behind our sovereignty, and upon those questions where there is no doubt we propose to stand on our contract, and on those questions where there is doubt we propose to open some correct and proper means by which they can be heard."

Senator Lyle. Senator Lyle.

Senator Lyle replied to what Senator Harris said about the inconsistency of those who would never pay betterments and yet were willing to vote for the resolutions. They admitted that there were matters to be adjudicated, and yet were unwilling to establish a commission to try them.

willing to establish a commission to try them.

Senator Whitfield.

Senator Whitfield again reviewed the inventory of 1872, calling attention to the 138 miles of fron that was taken up and sold, then only worn from the standard weight of 88 tons per mile to 75 tons per mile; the lumber, 21 miles of sidetrack and other items which could not be returned to the state, and maintained that when accounts were balanced the state should have a judgment against the lesses.

ment against the lessees,
Senator Bartiett spoke about ten minutes, reviewing the main points briefly, and was followed by
Senator Strother.

Senator Strother.

Senator Strother.

"The senator from the forty-second," said Mr. Strother, "stated that the president of the Wests ern and Atlantic lessee company said that legally they were not entitled to anything. He stated that so far as the Western and Atlantic bed, bridges and depots were concerned he had no right to make any claim. I rise to tell senators that if they will carefully examine that report they will find that the language is not so sweeping in its nature as he says. I suggest that it is better that we submit to arbitration than to the strict and rugged rules of law or of equity. We propose to consider all sides of this question.

"The senator from the twenty-second predicts a moral and political earthquake if this resolution is passed. I am not scared by such thyfaluten language. I have stood on the brow of war when cannon thundered around me and I am not to be frightened by such vainglorious language as that. I am not afraid of the voice of the people and if he wants to try that issue I say lay on McDuff, and damned be he who hollers 'null' first."

At this climax there was a roar of laughter and the resolutions went to a vote and were lost by a vote of 22 to 17 as follows:

IYeas—Clitton, DuPree, Edwards, Foster, Gibson, Harper, Harris, S. R.; Henderson, Johnson, Julian, Lyle, McCollum, Ray, Sharpe, Strother, Whitfield, Williams, Yeas—17.

Nays—22.

A Still-Born Resolution.

It now appears that on Thursday evening neither side felt sure of victory. This was develoted by the preparation of the resolution Senator J. W. Harris alluded to in his speech.

It was prepared for use in an emergency.
Thursday night Senators Hall and Bartlett and President duBignon had a conference and decided on the terms of a sunstitute if the developments of the morning showed that they had not strength enough to defeat the Whitfield resolution on a straight contest.

The resolution was prepared and was in the senate chamber ready for use. It provided that the superior court of Fulton county be opened to the lessees for a flearing on the question of the taxes, \$144,000, the water tanks, the depot in Atlanta, \$7,000, the extra side tracks, the hoist and scales in Chattanoga, altogether something over \$150,000, claimed by the lessees for extra improvements on which it is generally conceded by legislators that there may be some question. Against these the slate was to set up its claims for property that cannot be returned.

But the resolution was not introduced when it was found that there was a majority against the Whitfield resolution. It is hardly probable now that it will be unless the attempt to reconsider this morning develops considerable strength.

"We did not know how much strength we would have," said Senator Bartlett, "and we agreed on certain things to be submitted the anything at all was to be submitted. When we found that we could defeat the Whitfield resolutions we did so."

The lense bill came in from the house and was made the special order for Monday.

The senate will hardly agree to the house amendment changing the time awarding the lease contract from Gotober 27th, 1890, to Februaty 15th, 1890. A conference committee is probable.

Family Physician—Do you know, there seems to be a natural flavor about this food that is most appetizing? What method do you use in cooking it?

Lady Of Ite House—Well, Doctor, when I was at home, my mother would have no other than a Charter Oak Stove. From my earliest recollection I remembered how she would praise it, and her cooking was superb. So when we were married I insisted on having the same kind of stove. Of course the improvements made on them since mother bought hers, are most wonderful. Ours has all the latest, including the Wire Gauxe Overs Doors. I don't understand the process exactly, but they tell me that all meats cooked in ovens with these doors, retain their fuices and flavors to a much greater degree than by any other means. Can you explain the theory, Charles?

Charles (the Husband)—I can't remember all that was told me, but I know the Doctor can give a most clear and scientific statement of the reasons, can you not Doctor?

Doctor—Well, it is hardly professional to ask such information from a doctor; in fact, I am inclined to think he would not be helping his practice much by saying anything in favor of the Charter Oak Stoves. But as I have one in my kitchen, and know something about it, I think I can enlighten you. Of course it would take quite a long lecture to explain everything to you scientifically, and we have not time for that. Count Rumford, an American, who was Knighted in Europe for his scientific attainments, pointed out, nearly a hundred years ago, that baking and roasting meats in air tight ovens was wrong, and he proved it by actual experiments. He asserted that it was as essential to health that our food should be cooked in pure, fresh air, and that alt-tight ovens render the air impay, and the food cooked therein became tainted and unhealthy. But how to properly venilate the eaven was not discovered for many years after Count Rumford's time. The difficulty was to allow fresh air to enter the oven uniformly

the an great measures that contemplate reform, it encountered opposition.

The fate of the bill was doubtful.

Every change in the checkered career of that bill has been watched and weighed.

When the test came yesterday it did look as if the chances were against the bill.

Mr. Johnson's speech did it—turned defeat into victory and saved the bill!

The bill passed.

'Rah for Johnsing!

The Lease Bill. The house finished the lease bill yesterday. The changes, made after those recorded in yesterday's Constitution, were few and immaterial. In fact, the only change of importance was in reference to the time for leasing the roak.

The position of the house is embodied in Mr. Patterson's amendments—don't wait until near the expiration of the lease to receive bids.

The senate is in favor of waiting.

So the matter stands,

Two Prohibition Bills. "When Senator McCarty made the race this John Scroggins just lacked twenty votes of beating him. He came that near out of \$,000 votes. it is. He wants to get John Scroggius away from there."
The speaker was Mr. Cogg'us, of Banks.
He was attacking a prohibition bill introduced some time ago by Senator McCarty.

'The trouble is." continued the representative from Banks, "that John Scroggins is a power up there in elections. Mr. McCarty knows that. He don't want him there."
He then proceeded to defend Mr. Scroggins's character, and the character of the saloon.
The bill was lost.
Another prohibition fight was over a bill by Mr. Carthers, of Walton. In the last legislature a representative from Walton had passed an act prohibiting the sale of liquor within three miles of Walnut Grove church and academy. This was done in defiance of the wishes of the people of the district and county.

A Convict Lease Resolution. Mr. Huff, of Bibb, fired a last shot yesterday

Mr. Huff, of Bibb, fired a last shot yesterday at the convict lease system.

It was in the shape of a resolution, and the resolution explains itself.

Whereas, The convict lease act of February 25th, 1876, made it the duty of the lessees, or company of lessees, to procure some "suitable site of place," to be determined by the governor, on which they should be required to erect, at their own expense, suitable, convenient, safe, healthy and commodious prisons, barracks, hospitals and guard houses, which should be known as "the penitentiary of this state"; and Whereas, The satal lessees and companies of lessees have failed to procure any such "site or place under the direction of the governor, and have failed or refused to erect or build any such "state penitentiary" as was provided for in said act of 1876; and

Whereas, The state of Georgia has never been furnished with any "site or place" which can be designated or used as "the penitentiary of the state," as provided for in the act of 1876, under which the present lease was made, there being no site or place which is known or recognized as the

which the present lease was made, there being no site or place which is known or recognized as the penilentiary of the state, at which the principal physician and chaplain of the state can, or pretends to reside and carry out the provisions of the act of 1876 and.

to reside and earry out the provisions of the act of 1876, and,
Whereas, The lessees and companies of lessees have all failed in many respects to comply with and conform to the plainest provisions of said act, and have frequently violated their contracts under that act, and especially have they violated them in failing to make safe and sultable arrangements for failing to make safe and suitable arrangements for guarding and projecting the women and children assigned and entrusted to their care; and have failed or refused to make and enforce, any sort of regulations by which persons convicted of crimes involving moral turpfude, could be prevented from associating with those of less victous character, as is required by these lessees under the act of 1876; and.

associating with those of less victous character, as is required by these lessees under the act of 1876; and.

Whereas, the state of Georgia has for the last twenty years been entirely without any site, place or buildings which could be called the penitentiary of the state, and has, therefore, been entirely dependent on the judgment and discretion of an innumerable gang of irresponsible hirelings, which have from time to time been employed by the lessees owning and controlling the various convict camps which are scattered throughout the state, for the proper exercise and enforcement of that police power over said convicts which should never be surrendered by the state; and.

Whereas, The act of 1876 fails to provide for the imposition of any fixed penalities for the open and notorious violations of its provisions and the contracts made under it; and leaves it entirely discretionary with the governor as to what penality, or penalities shall be imposed in certain cases; and. Whereas, The ceneral welfare and public policy of the state demand that such changes be made in the present parliculary system of this state as will guarantee the enforcement of better police regulations and give the prison management of the state such reformatory features as will be in keeping with the dictates of a common humanity and in harmony with the teachings of all civilized Christian countries.

with the teachings of all civilized Christian countries.

Whereas, Resolved by the house, the senate concurring, That the governor be, and he is hereby authorized and directed to have that section of the act of 1876, which provides for the erection of suitable buildings by the lessees, at a site and place, under the direction of the governor, to be known as the penitentiary of the saits, promptly and rigidly enforced against the lessees, and companies of lessees—and that when said state penitentiary is so built and ready for use that all the female prisoners, and all the male prisoners, under sixteen years of age, and all of the very old and infirm male prisoners, shall be immediately transferred from the various convict camps of the state; to said state penitentiary.

from the various convict camps of the state; to said state penlientiary.

Resolved, further, That the said convict lessess shall be allowed six ments tips in which te build and complete the state penlientiary, and when so complete the governor shall place it under the constant supervision of a competent physician and chaplain, both of whom shall reside at the penlientary and give to it their entire time and attention, so that all the provisions of section third of the act of 1876 may be carefully and rigidly enforced,

No action was taken on the resolution.

Mr. Twitty, of Jackson, has had hard luck with a bill.

This is the one to declare void all obligations to pay attorney's fees unless a plea or pleas be filed by defendant and not sustained. Once before the bill was voted on, and lost by four

votes.

Then it was reconsidered, and Thursday sgain it received 84 votes—exactly the count that lost it before.
This killed the bill.

A great many people feel themselves gradually falling. They don't know just what is the matter, but they suffer from a combination of indescribable aches and pains, which each month seeml to grow worse. The only sure remedy known that will counteract this feeling and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

"About three years ago I was troubled with poison in my blood, very irritating and painful boils breaking out all over my body. For two years I suffered with them, trying all sorts of medicines and doctor's prescriptions without avail. Becoming disgusted with doctors, and remedies I had used up to this time, I concluded to try S. S. S., and the result was far beyoud my expectations. A few bottles left me in better health than I had been since child-hood. I consider S. S. S. the only medicine that will thoroughly purify poisoned blood." T. K. MAYFIELD, Horse Cove, Ky.

BE SURE TO KEEP TO THE RIGHT."

Dr. H. C. Edmunds, of Elberton, Ga., writes: "A very peculiar and strange case of blood poison came under my attention a short time ago. A gentleman came here from Athens, Ga., where he had been bitten on the hand by a vicious mule that he was breaking to work. The hand was in a horrible condition, and the inflammation was rapidly extending throughout his entire system. Every knuckle on his hand was an ulcer that was deep and sloughing. He stated to me that he had consulted several physicians, and taken their medicines without deriving any benefit. I gave him a course of Swift's Specific (S. S. S.), and in a few days he reported to me a marked improvement, and in one week from the time he commenced taking S. S. S. the hand was healed and the poison entirely eradicated from his system. It is my opinion that he would have lost his life had it not been for the health-giving properties contained in Swift's Specific. He frankly admits himself that S. S. S. did the work.

### PLANTERS HOTEL.

THIS OLD AND POPULAR HOTEL, OF ANTE Dellum days, is so well and favorably known, that it is aimost unnecessary to mention Augusta, Ga., as the city where it is located. Before the Kimball house was known, the Planters was the finest hotel in the south, and today has lost none of its past prestige. Some of the crown heads of Europe have sheltered their heads beneath its hospitable row, and the great men of the past and today delight to do her honor. Augusta is coming to the front very fast as a winter resort, and the Planters' is doing her part well by overhauling, re-furnishing and re-carpeting. The commercial traveler delights to stop at the Planters. Mr. Camp, the new proprietor, is an Atlanta man, and is keeping the Planters in strictly first-class style. ATLANTA, GA., NOVEMBER 2, 1889.

The Exposition's Last Day. Today closes the Piedmont exposition? A big programme has been arranged-the

best programme of the entire month. It is labor day! All the railroad shops and offices-all the cotton factories-most of the big and little shops in the city will close at 11 or 12 o'clock today, or have already closed.

The price for children for the day has been put at ten cents; so that all the little folks can go in. A special programme has been arranged for them-and the baby show will be interesting to them.

The fireworks display tonight will be a revelation of beauty and grandeur. The gentlemen who are to fire the display insist that they will surpass in every respect the display made by Messrs. Pain & Sons, of London, on Thursday night. Those who saw that display will agree that it is wellnigh impossible to do that, but Mr. Dowling says, "I guarantee that it will be done!"

If it is not actually raining at 5 o'clock, and does not rain after that hour, the display will be fired. The rain that fell yesterday and last night has cleared the atmosphere that was slightly muggy on Thursday night, and the sky tonight will be clear and transparent-if it is not raining.

The Whitfield Resolutions.

The defeat of Senator Whitfield's effort to provide a tribunal composed of some of the purest and ablest men in Georgia, headed by the three judges of the supreme court, to adjust all matters in dispute between the lessees of the Western and Atlantic and the state bodes no good.

If ever there was a proposition of any kind calculated to commend itself to well-meaning people this effort of Senator Whitfield ought to have done so. As chairman of the joint committee of conference with the lessees, he saw the difficulties which surrounded the question and appreciated the dangers to the state, and went to work to apply a remedy which would do justice to lessees and at the same time rigidly guard the interests of the people. His resolutions were fought fiercely, but, as we believe, unadvisedly, which time will proba-

bly serve to clearly demonstrate. That the lessees have claims which ought to be adjusted no one will gainsay, and that the state could have set up counter claims is equally true. Senator Whitfield's resolutions contemplated the settlement of these claims in a speedy way, so that all complications and doubt as to what the state had to offer to the lessees under the new lease act should be freed from uncertainty. To say that some such method is not advisable is to say that business men who disagree should not try to settle their disagreements, but instead rush headlong into tedious, expensive and dangerous litigation, regardless

In the discussion of the question from time to time THE CONSTITUTION has had but one object in view, and that was to point out what, in our judgment, was so manifestly to the interest of the people of Georgia. That the senate has not been able to view it from this standpoint creates no spirit of resentment. Let us hope that It was right and that we were wrong; but, viewing every phase of the question as presented by both sides, we are forced to the conclusion that it has made a grave mistake, and that the future will assuredly con-

firm our position. Of Senator Whitfield's efforts it may be said that he was on the right line, and that his dignified and manly course in the conception and advocacy of his proposition will be obliged to meet the approval of the people, and, whether the wisdom of his efforts be made manifest early or late, the time will come, and at no distant day. when he and those who supported him will

Tuesday's Elections. Next Tuesday eleven states will hold

In a few of these the result will be watched with, interest. Especially is this true of New York, Virginia and Ohio. There is not much doubt of the general result in New York. The democrats will elect the secretary of state, but the campaign in the city of New York is muddled as usual by the foolish contest between Tammany and the county democracy, and the result of the election for local officers is doubt. The county democrats have made an open alliance with the republicans for the purpose of defeating the Tammany

candidates, and the result is very doubtful In Virginia, the campaign has taken the shape of a desperate effort on the part of the ablicans to reinstate Mahone. The national administration is backing him, and he has been well supplied with boodle by the republican national committee. The ocrats, however, in spite of the boodle, in spite of the solidity of the negroes, and in spite of the cunning that Mahone has displayed, feel confident of earrying the state by a good majority.

Ohio, Mr. Campbell, the democratic candidate, has made an extraordinary campaign. He has developed unexpected qualitles as a stump speaker, and he has managed to put the republicans on the defensive from the start. He is bold, aggressive and attractive, and has succeeded in imparting some of his own earnestness and enthusi asm to the democratic organization. He eded, several weeks ago, in running Foraker off the stump, and that worthy has since held himself severely aloof from current polities. The democrats hope to elect their candidate for governor, and to gain a majority of the legislature on joint ballot.

Maryland and Iowa elect legislatures

Maryland will elect a democratic legislature. In Iowa, the democrats are making campaign which, if not altogether hopeful, is very encouraging. Under the leadership of Horace Boies, they are giving the republicans a good deal of uneasiness

These states cover the points of interest. In the others, the canvass has been of a somewhat perfunctory character, the result being known from the first. want to hear good news from Virginia and Ohio.

Dorr and Mahone.

The alleged threat of Mahone to claim his election, and organize a seperate state government in Virginia, shows the desperation of the man, but it will alarm nobody. General Mahone should take warning by the fate of Governor Dorr.

Early in the forties the little state of Rhode Island resembled a boiling pot. The commonwealth was rent in twain by two belligerent political parties. Thomas Wilson Dorr was the leader of the suffrage reform party. After the election he proclaimed himself governor, and set up a separate state government. He organized bodies of armed men, and sent them to seize the state arsenal. Governor King, the lawful governor, resisted. For two months the conflict raged between the two governors and their forces. Finally Dorr was defeated. He was tried for high treason, convicted, and sentenced to life imprisonment. At the end of three years he was released under the general amnesty act, and a few years later he was restored to the rights of citizenship. But the disgrace of his conviction weighed him down, and the remainder of his life was passed in obscurity.

With Dorr's example before him. Mahone would be a madman indeed to attempt to capture the governorship by force of arms. The Virginians would not have the patience of the Rhode Islanders. Under similar circumstances they would make short work of the insurrectionists, and at the end of the struggle there would be very little business left for the courts. The leading malcontents would be punished without waiting for the slow process of law.

The Dorr programme will hardly be carried out in Virginia.

LET us all be thankful that the new postage stamp will not contain the friendly admonition, "Go to Wanamaker's." A DAKOTA man says that President Harri-

EDITORIAL COMMENT

HERE ARE A FEW interesting items about books and their authors. The Rev. Dr. Strong's book, "Our Country," has reached a sale of nearly 50,000. It made its way in the south and west los before it was heard of in the east. E. P. Roe's novels were widely read before the newspapers found it out. The most profitable book ever printed in this country was Webster's Spelling Book. More than 50,000,000 copies have been sold. General Lev Wallace made \$40,000 out of "Ben Hur." paid Edgar Saltus last year Clarke & Co., amounted \$4,000 and \$5,000. MILLEDGEVILLE, Go., November I.—[Special.]—The death in the lunatic asylum of Mrs. Wray, sister to the late Swepson Cox, who was killed by falling from Captain R. H. Lampkin's platform several years ago, revives a sad life story. Mrs. Wray, before she lost her mind, was a brilliant lady and highly accomplished and educated. Even after her mind became impaired she was a constant reader, and kept posted on every subject. She left a nice little property, all of which was willed to Judge Sam Lumpkin, with whom she once boarded, and who was very kind to her. Mrs. Wray leaves many blood relatives, and it is said that they will attempt to break her will.

THE STATE FAIR. IT CLOSES AFTER A SUCCESSFUL

WEEK. The Management Highly Pleased With the Result of the Exhibition—The General News of the Central Csty.

News of the Central Csty.

Macon, Ga., November 1.—[Special.]—The State fair closed today after one of the most successful exhibitions in the history of the Georgia Agricultural society. There was a good crowd-in the exhibition halls today, despite the heavy rains that fell in the morning. The attendance this afternoon would have been very large, if the weather had been good, as the best racing events of the week were set for today. A great many of the exhibits were sold at auction today. The agricultural displays of the different counties were rapidly disposed of. There was quite a demand for the curiosities in the display of McIntosh county. Northern visitors bought quite a number of the noveities and oddities. McIntosh county has been finely advertised by her exhibits.

MADE MONEY.

It is generally supposed that the agricultural society made quite a nice sum of net cash by the fair. The gross receipts were quite large, and, after deducting amounts for premiums and all other expenses there will be a sing sum remaining in Treasurer Powell's hands. The society has been fortunate with all their fairs.

A LOCAL COMPANY.

Now that the fair is over, it will not be impolitic to publish the fact that some of the leading citizens of Macon are discussing the idea of forming a local

to publish the fact that some of the leading citizen to publish the fact that some of the leading citizens of Macon are discussing the idea of forming a local company, something on the order of the Pledmont Exposition company, to give annual exhibitions at the park under itheir own management. Various that are suggested. One is to unite with the agricultural society and give a combined exhibition, the society managing only the agricultural part of the exposition and the local company controlling all the balance and the accompanying attractions, such as the races, drills and other entertainments.

Another plan is to form a local company entirely independent of the agricultural society, make a stock concern of it, erect more buildings at the park, and run the affair on an extensive and attractive scale. Prominent and enterprising eitzens are daily discussing the foregoing, and it would not be surprising if plans mature very soon. Surely, if twenty-five thousand people visited Macon on a single day during the fair just drawn to a close, seventy-five or one hundred thousand would visit Macon if an exposition is conducted on the plans above set forth.

Another Man's Wife.

Canton, "Ga., November 1.—[Special.]—
Hugh McKay and A. W. Carmichael came
together at the former's home last Monday.
The result was that McKay got shot in the
calf of the leg and severely thrashed. The
trouble grew out of an insult offered to Carmichael's wife by McKay. McKay went to
Carmichael's last Saturday to buy some
whisky. Mr. Carmichael was away in Atlanta
and Mrs. Carmichael waited upou him. He
grossly insulted the lady while she was fixing
up the whisky for him. Mr. Carmichael returned home Saturday night and was informed of McKay's conduct. He thought the
matter over all day Sunday, and finally decided
to give the man who had insulted his wife in
his absence a sound thrashing. He went to
McKay's Monday morning for that purpose.
He called McKay out to the fence, and when
asked about his conduct the guilty man turned asked about his conduct the guilty man turned to leave without one word of explanation. Mr. Carmichael shot him in the leg to stop him, and then gave him a sound thrashing. All of this trouble occurred in the presence of John Sims, and he figured in the matter to the extent of swearing out a warrant against Mr. Carmichael, charging that he attempted to shoot him. The warrant was promptly dismissed by 'Squire Keith.

As soon as the exposition is over-probably on Monday next—a ten-minute schedule will be arranged on this inner circuit. The company has a comfortable waiting-room on Broad, two doors east of Marletta. "To West Peachtree branch of the road," raid Superintendent Nelson yesterday, "will be completed at once, and we expect soon to have cars running on every part of our lines."

The work on the government building goes ahead slowly.

"The chrysauthemum show to be held next Tuesday," said Mr. Will Henderson, of the agricultural department, "will be the finest thing of its kind ever seen in the south. I have just returned from Macon, where I saw the display of two hundred varieties, which will be brought here,"

Detective E. A. Wilson, of Shackleford's detective agency, returned from Abbeville, Ga., yes terday. He was employed to lerret out a numi er of bilnd tigers, and, after a little work, arrested fifteen law-breakers, all of whom pleaded guilty to having violated the local option laws of the county. They were bound over to the state courts.

Senator Colquitt came in from Washington last night, and soon after his arrival met Congessman Cariton at the Kimball. Judging by the earnestness of Dr. Curlton's manner, he was busy depicting the merits of the Athens fair.

Yesterday was a good one for the hackmen. They did not forget to make charges according to their new schedule of rates. Highway Robbers Yesterday Dorse Stringer and Horace Han-

nah were arrested on a charge of highway robbery. A negro named Arnold, a stranger in the city, claims that he was enticed into a lonely place, somewhere in the outskirts of the city, and robbed by the two negroes of five dollars—all the money he had.

92 Whitehall. A RARE CHANCE.

PARE CHANCE FOR A LOVELY SUBURBAN I Home or Homes—As my business calls me elsewhere, and as I desire to pay every dollar of my indebtedness before leaving. Atlants, I have very reluctantly decided to sell my beautiful Edgewood home at once, either as a whole or subdivided portions thereof. I have had an expert engineer to carefully survey and plat the same, and will sell at a bargain, the most magnificent suburban lots in the south at a sacrifice. The property is my home place, near Atlanta, occupied this spring and summer by Mr. Hugh T. Imman and family, adjoining the lovely homes of Senator Colquitt, Major Tom Walker, P. H. Snook and others, and very near the justify celebrated Moreland Park Millitary school. It is immediately on the Fulton County Electric railway, about 200 yards from Pendleton station, on the R. & D. R. R., and very near the Georgia R. R. and the Atlanta and Edgewood Electric railway. The place is a twelve-acre grove of native oak, hickory, elms and pines, interspersed with pecans five years old; also a lovely rose garden and granite pit for hothouse plants. The grove is set in blue and or-chard grass, and is gently rolling in every direction from the house. It is the highest point in Edgewood, overlooking the city of Atlanta, and is pronounced by everyone to be the ideal suburban home of Fulton county. A magnificent 60-foot well of water through solid granite is on the place and sparkling springs in Copenhill park, 100 feet from the property. The house is a good, substantial country house, strong and solid, containing ten large and four small rooms, two large, wide halls, a deep granite wine cellar and a cold storage cellar, single or double closets in every room and 300 feet of wide, massive veranda, with lovely views in every direction. The place as a whole cannot be duplicated in the south, and nature has so laid it off that it can be subdivided and built on so as to make the whole a most beautiful residence park and yet the distince and separate home of a diozen or more A RARE CHANCE.

### NEW YORK STOCKS.

Stocks as Reported at the New York Stock

New York. November 1.-In the stock market today, trusts were again the all-absorbing feature, and cotton oil, in particular, attracted an interest which threw all other stocks into the shade. Out of a total of 372,000 shares of stock traded in on Out of a total of \$72,000 sales of stock traded in on the New York stock exchange today, the unlisted department furnished 205,000 and the regular list only 167,000, white cotton oil alone contributed 129,000 shares of business. This difference was specially noticeable in the first hour, when sales of unlisted stock were in the proportion of three to one of rail-road stocks and of cotton oil 50,000 shares changed hands in the first half-hour's business. The fact that today was a holiday in London, accounted for a pertion of this discrepancy, but uncontradicted rumors in regard to cotton oil far more The annual meeting of shareholders of cotton oil was held today and was well attended, and it de-

was left found and was well attended, and it de-veloped the truth of the story that carnings have fallen about a million short or the estimate given out, and have reached only \$1,600,000. The atterances of General Thomas also to the effect that properties in the trust are worth about twelve to fifteen million, showing that shares have been sellfifteen million, showing that shares have been sell-ing far in excess of their worth, gave an impetus to

the further decline ostablished.

The crowd in the stock exchange at the opening this morning was very large, and the announcement that three gentlemen selected to positions in the board had refused to serve, gave the impression the board had refused to serve, gave the impression that something must; be wrong with the trust, and selling assumed extremely heavy propertions immediately. Bears and traders were on hand and pursued the usual tactics of offering stock down in advance of regular sellers and numerous stop orders being reached, the downward movement did not cease until 32½ was touched, a net loss of 5½ from last evening's figure. Liquidation seemed to be completed for the time being at that point and a rally to 35½ followed, but this was succeeded by a renewal of selling in the last hour and it closed at 33½. The lead trust was attacked in sympathy with cotton oil and forced off to below 20½, which dislodged considerable long stock. Trading in it was very large also, reaching 57,000 shares but it was overshadowed by cotton oil and its movements were comparatively small. Sugar was, like the railroad list; inclined to strength in the forenoon and actually did rise nearly two per cent but felt the pressure at last and all of the imp. ...mont was wiped out.

Radiroad stocks, as long as they were left to their natural bent, anvanced slowly, though the gains were generally confined to fractions. Tennessee coal, however, reached 62 on its early spurt, again of about three per cent. This, however, was afterward wipe dout. About noon bears and traders turned their attention to the regular list, and Missouri Pacific was raided and its price was broken nearly three per cent, followed by Chicago Gas and Grangers. Other groups of stocks were almost neglected, although there was some animation in Lackawanna and Lake Shore, which was, with other Vanderbits conspicuous for strength. Union Pacific was also active and after an early fractional indicates the conspicuous for strength. Union Pacific was also active and after an early fractional advance declined one per cent, closing a fraction lower than last eyening. Nows bearing upon the values of railroad stocks was generally of a favorable tenor, but had no effect against raiding the list received.

The close was fairly active and heavy to weak at about the lowest prices of the day. Final changes show a large majority of losses, and while Chicago and East Illinois preferred is up one per cent, cotton oil is down 3½c. Chicago Gas and Missouri Pacific 2½c each, Lead trust, 1½c, and Burlington and Quincy 1c.

Newport News Philadelphia West Point Total. .1.291.627 NEW YORK, November 1.—[Special.]—Henry Clows & Co.'s circular on the cotton market today says: Speculation in the cotton market during the week has been confined within narrow limits with unimportant fluctuations. On Monday futures opened at some decline under the failure of the frost

opened at some decline under the failure of the frost predictions of Saturday to materialize, but partially recovered when it was discovered more trost had fallen than was reported, but the market soon weakened. The October corner was maintained with some vigor, and for the gleater part of tae week up to the close of the month there was some anxiety as to the final result. Many of the shorts prefer deferred covering until the lest day when the market ferred covering until the last day when the market was variable. But under a good demand October advanced to 10:90, at which price the option ex-pired. The manipulation of the month has disturbed business and caused a feeling of uncertainty as to the course that will be followed in the Novemter option. There were at least 40,000 bales actual cotton delivered to the clique, which they have on cotton derivered to the chique, which they have on hand with November option 90 points below the final price of October. What they will do with this cotton remains to be seen. The week closes with a fair speculation and a firm market. The general feeling seems to prevail that more damage has been done than has been generally supposed. In northern Texas the frost was severe, and there is no possibil-ity of a top crop. Estimates have been reduced considerably, and receipts are lighter. There is a good demand for spot cotton in the south, and the markets there are firm, with a good inquiry for foreign account with large exports for the week. All of these causes combined have inspired the bulls with more confidence, and in addition to this there is a large outside short interest in the market, and it is very likely that there will be further improvement in prices next week. The market closes steady, with a slight decline under realizing sales and a desire to even up on the week's business. Tomorrow being a short day, Liverpool does not show much change in quotations, they having reduced 1-14, with sales of 67,000 bales of all kinds, 57,000 bales of which were American cotton. NEW YORK, November 1,-The Sun's cotton re-

view says: Cotton futures were buoyant to the last call, when the market weakened, and in the clos-ing dealings part of the advance was lost. Yet the buils had triumphant innings on a report by a Memphis house that the crop in the northern belt

is much below last year. The bears got scared; and the advance was not checked until prices had risen 14@15 points above the lowest figures of yesterday. Then it was known that in a recent year this Mem-phis firm had made a similar mistake, putting the crop at 6,000,000 bales when it proved to be over 6,500,000 bales. THE CHICAGO MARKET.

Features of the Speculative Movement in CHICAGO, November 1.-Wheat-There was a fair valume of business today and the market, although soc-sawing back and forth within %@%c range, showed some firmness. The opening was about the same as yesterday's closing, advanced %@%c receded %@%c and closed %@ lower for December and %c lower for May than the closing figures of yesterday. The market at times rather indicated that the operators were more disposed to realize for May delivery, for which offerings were rather large, and the premium over December was reduced from 4@4%c to 3@3%c. For December there was a moderate buying and offerings were not large. The receipts continue on a liberal scale. Rain was reported in Wisconsin, Iowa, Minnesota and Missouri and snow in Kanasa and Nebraska. The stock of wheat in the country elevators in Minnesota and Dakota were reported as showing an increase of 7.00,000 bushels during October.

Corn—A fair speculative and good shipping business was transacted in this market. The market opened strong %@%c over yester days closing, was firm, November advancing %c, indicanced by the weather, small receipts and a good shipping demand. The reaction later was due to tree selling of December by a prominent local operator, supposed to be long largely of year delivery around 31%c. The market then railled, became very weak, and closed %@%c lower for November, December about \( \text{ Cover and May %c lower than yesierday. Cables were firm and the domestic markets easier.

Oats were traded in freely for May, but other dascriptions were quiet. Weaker feeling developed and prices receded \( \text{ Moyer} \) and the market closed erisy at about inside prices and \( \text{ Moyer lower for Moyember, December were firm and prices were 7% \( \text{ Cover than yesterday.} \)

Mess pork—Trading was only moderate, the feeling was stronger and prices were 7% \( \text{ Cover than yesterday.} \) sawing back and forth within 1/65/c rang showed some firmness. The opening was about th

Mess pork—Trading was only moderate, the feeling was stronger and prices were 7½610c higher here, with some buying by shorts. Later the market was easier with mote pressure to sell and prices receded 15@17½c on November and 5@71½c on January and closed rather quiet.

Lard—Very little attention was given to lard in this market and stading was lighter than for several days past. Prices averaged a trifle higher, but outside figures were not fully supported to the close. Short rib sides—Hardly sufficient business was transacted to establish the market. Prices exhibited but very little change, rather favoring

HOW MILLER WAS KILLED ASSIGNBOR TELLS THE INCIDENTS

Arrest of Some Negroes Charged With the Crimo-Mrs. Miller Cannot Identify

Them.

Mr. J. A, Anderson, of Houston county, is at the Markham. He is a neighbor of Captain William Miller, who was so brutaily murdered last Satinday night, and was one of the first men at the sense of the tragedy.

"Captain Miller," said Mr. Anderson, "was a very men man is the community. He came to Savansah, as a steamboat captain many years ago; and aftewards married a Miss Harrell, of Houston conty, who was one of the first families in that part of Georgia. He came out and settled on a minimation ten miles from Hawkinsville, and two sons and a daugnter were born and grew to manhood and womanhood. One of the son accidentally shot himself and died, and the ntally shot himself and died, and the two children married.

"After the war Captain Miller and his wife re-mained on the plantation, which was run with agro laborers. Captain Miller became one of the most metul men in the community. He was a prominent alliance man, a member of all the agri-sulliral societies, and being a man of fine business susilies he taught his fellow planters many a valu-tion of the communical buying and selling so that

callural societies, and being a man of fine business qualities he taught his fellow planters many a valuable lesson in economical buying and selling, so that they came to look upon him as a leader among them. Among the negroes he had the reputation of being a very rich man, and this was probably the cause of the tragedy that ended his career. "Is aw him on Saturday, when I arrived in Hawkinsville from Macon, and I thought at one time that I would ask him to take me home in his begg, but my own arrived and I did not do so, sanday morning I was horr fieed by the Intelligence brought by a runner that he had been murdered and with my overseer hastened to his home. "The bloody details of the tragedy have been my overseer hastened to his home." The bloody details of the tragedy as wounds on his head and a rill of blood that had an nom the wounds across the room. Mrs. Miller was found with a number of wounds on her head, right arm and breast, in an unconscious condition. The bureau had been troken open, and a trunk in the next room; both ransacked from top to bottom. "About a hundred yards from the house, where tracked two men for seven miles and found where they had stopped, just before day, asked for top and warm water and washed themselves. A bloody rag was found in the room that they had used.

There is a family of negroes living on the plantation, the Mr Gale family, however, that we suspected of complicity in the murder, and we arrested two of the sons, a son-in-law and another negro insmate with them, and looked them in Perry jail.

"There day it was runnored that Mrs. Miller had become conscious and had called the names of several of the murderers, and a crowd of abount fifty mental of the murderers, and a crowd of abount fifty mental of the murderers, and a crowd of abount fifty mental of the murderers if identified.

"I was present, and in talking with Mrs. Miller she told me that she could not identify them. She heard a noise in the hell, got up and closed the door, and then resumed her seat near her husband. In a few minutes the murderers, whom she supposed were concaled in the hell, rushed in and began the assault. She was knocked unconscious, and knew no more muit about midnight.

"The reason we suspected the McGhees was that Captain Milier has trouble with them last year, one of them having sto en a bale of cotton from him, and when he tried to drive the negro off the place with a hoe there was a little difficulty between

them.

"This negro, Isham McGhee, has not been found, and it has been proven that he was there on Saturday veening. A reward of 5000 has been offered for the capture of the marderers by Captain Miller's son, and the governor has been asked to increase it still further."

An Interesting Thought!

200,000 Estey Organs.

200,000 Estey Organs have been manufactured Think of it. Try and realize what it means. It is one organ finished every week since Noah built

Do you suppose it would be possible, with a sufficlent number of men, to build a fine Reed Organ all ompite in seven hours? No doubt it would, but it would certainly require a large force of skilled men to do it. Now, if the Estey Organ company had taken so long a time as seven hours they would have had to begun before Columbus discovered America in order to complete 200,000 organs in 1888. They have actually been building their famous Reed Organs forty years, averaging about one organ in thirty-five minutes. And not building them only

They have sold them. No other organ can show such sales. What does t prove? Simply that the ESTEY Organ is the faorite, that it is the best value for the money invested, that it has been the choice with the majority persons who have purchased organs.

You can't make any mistake ut choosing an ES TEY, for the great majority is with you, Go to the ESTEY Organ Co.'s ware-rooms, corne Marietta and Broad streets, Atlanta, Ga., and you en be suited in price and terms.

## THROUGH THE CITY HALL

WHAT IS GOING ON WHERE CITY OFFICIALS WORK.

hing Election Being Discu A Mass Meeting Suggested—The Tax Assessors Working in the Fourth.

sessors Working in the Fourth.

The approaching election for two aldermen and six councilmen is warming up, and the ward politicians are commencing to cut their scollops.

About the city hall nothing is talked of except the election, but the talk is of an uncertain kind, because the talkers do not know who will be in the face and how the race will be conducted; whether there will be a mass meeting from which candidates will spring, or whether there will be a free for all, go-as-you-please campaign.

There is a general feeling, however, in favor of a mass meeting, and it is more than probable that there will be one in the early part of this month.

But how will that mass meeting originate?

Who is authorized to call one?

Atlanta, unlike most cities of its size, has no city

Atlanta, unlike most cities of its size, has no city executive committee to issue the call, and in the past the mass meetings have been the growth of a caucus in which a dozen, or more citizens figured—these having come together by mutnal consent after curb-stone discussions of the political situation.

This plan will, in all probability, be followed again this year.

This plan will, in all probability, be followed again this year.

The ourbstone debates have been had.

And there have been one or two gatherings—gatherings of gentlemen prominent in municipal matters; gentlemen who have always had a hand and volce in moulding the tickets.

In a few days they will come together again, and the probabilities are that a call for a grand mass meeting will be issued.

The gentlemen who have been considering the campaign in these meetings are among Atlanta's best and most substantial citizens—men in whose hands the city's interest is in every way safe.

way safe. Two plans have, it is said, been suggested by

Two plans have, it is said, been suggested by them.

One is a grand rally at the courthouse, where a permanent organization will be effected. Then after that organization a resolution will be introduced directing the chair to appoint a committee from each ward. These committees will thun retire to the jury rooms and elsewhere and select a caudidate to represent the ward, and at the same time recommend two names for aldermen. When the committees have completed their work, the meeting will be called to order again, and the reports submitted, ward at a time, of course. Each report will be before the house then for discussion, ratification or rejection.

be before the house then for discussion, ratification or rejection.

The other plan is to have ward meetings. Let each ward have its own meeting, and select delegates to a meeting where a like delegation from each of the other wards will appear. Then this convention of ward delegates will put out a ticket. That ticket may be taken before a mass meeting, held subsequently, or it may not.

Within the next few dars the campaign will assume a positive and definite shape.

More Delighted Each Day.

The assessors are still working through the fourth ward giving a valuation to each piece of property so that Atlanta may decide the amount the owner shall pay into the city treasury. The investigation reveals an astonishingly large number of new buildings in all parts of the ward.

'I have been serving Atlanta in one way and another for years," said Mr. Malone, one of the assessors yesterday, "and year after year I have gone over the city assessing property, but this year my heart has been made happier than ever before."

'In what way?' he was asked.

"The new buildings. Never before have I seen so many, and in many instances the structures cost way up in the thousands. So far I have seen only the fourth ward, but in it I have found thousands and thousands of dollars added to the city's wealth since we closed the books last year, From another source, too, I know that the fourth ward, has had less improvements than any of the other wards."

"Then the entire city will show an increase?"

"Yes, and a wonderful increase, too. A greater one than it has eyer shown before." More Delighted Each Day.

To Meet Next Monday.

The general council will meet in regular session next Monday afternoon at three o clock. So far no petitions of great importance have been lodged with the city cterk, and the indications are that the meeting will not be very lively. The mest important feature of the session will be the Union Street Car company's petition. At the last meeting of the general council Mr. Culpepper, secretary of the company, sont in a petition to substitute electricity for mule power on various streets. The petition was referred to the street committee and tonight that committee will draft its report, which will be submitted to the general council during the meeting.

The New City Cemetery.

The New City Cemetery. Mr. Woodward's resolution creating a special Mr. Woodward's resolution creating a special committee to consider the advisability of a new cemetery for the city—a cemetery owned by the city—will be discussed again next Monday. Mr. Woodward will urge the purchaso of land for the new city of the dead, claiming that the prices charged by the Westview cemetery company are outrageously exorbitant. He wants the city to own its own-cemetery and dispose of the lots in the same way as a was done before Oakland cemetery was closed as a burying ground. Mayor Fro Tem Hemphill, who has the power to appoint the committee, will be asked to make the appointment at once, and the committee will be requested by Mr. Woodward to begin work immediately.

EDITIORS OF THE CONSTITUTION: Gentlemen.—Please publish the following postal card that I received this morning through the mail. I thought all the cranks in Atlanta were dead, but I see by the following card there is one here yet.

DEAR SIR: Why did you take the ladies bread from them? They bought the flour from you and paid for it; it was a dirty trick—yes, stealing.

J. J. Duffy, Esq.—Dear Sir: Please necept thanks for the prize bread you se kindly sent us; our wish is you may long live to carry off the palm. Yourstruly, P. E. Brown,

Manager Providence Infirmary.

MR. DUFFY.—Thanks very much for the nice box of bread. Respectfully, R. HUNTER, October 23, 1889. Matron K. D. Hospital.

MR. J. J. DUFFY—Sir: I have just received your handsome donation of bread, for which please accept thanks.

October 23, 1889.

Mr. J. J. Dufffy, 75 Peachtree Street.—
Dear Sir: It gives me very great pleasure to say that your "Superlative" flour was used in making the cake which took the first prize, \$10, offered by Mr. Lovan, for best cake made with C. O. P. lard, two good articles combined, which I heartily recommend. With best wishes and the assurance that Duffy and his "Saperlative" flour will always give satisfaction, I remain, Very respectfully.

CLARA WATKINS.

J. J. DUFFY, Esq., City—Dear Sir: Please accept my thanks for the inclosed 225 premium just received, award for your flour. It is the best I have ever worked, and in fact, the easiest, as also the whitest. Altogether it gave me more than satisfaction by its more than uniform results, Again please accept my thanks.

Respectfully yours, etc.,

Mrs. Mary Mussa.

CENTRAL PROPERTY.

CENTRAL PROPERTY.

Improved property. Vacanti property. I will sellupon the premises;

Thursday, November 7, 1880, at 10 A. M.,
that magnificent place of central property adjoining the Markham House, now occupied by Brady &
Miller's livery stable. This property fronts 434 feet
on Loyd street, and has what is rare in central
property, depth, being 220 feet deep and 90 feet wide
in the rear. This needs no comment from me to
commend 44 to capitalists. The world already knows
what Atlania central property is, only to be bought
when death removes the owner and heirs want to
divide the estate.

Immediately after selling the above, I will adjourn to 77 Crew street and there sell a comfortable,
well constructed seven room honse and vacant lot.
This property is well located, close in, and in one
of the best vicinities in the city. I will sell upon
the premises Nos. 10, 22 and 24 Spring street, as
shown by plat. This property is central, under the
shadows of the custom house, grain clevator, the
Central Prestyterian church and the mansion of
John Silvey, and has on it 3 3 room brick cottages.
Then the procession will move just around to the
contral Prestyterian church and the mansion of
